

How to create a new order

1. If you are not yet registered on our site, create a [new account](#)
2. Log in to your [client area](#)
3. Click on Dashboard and Choose a product/service
4. Configure the chosen product/service
5. Click on the Continue button
6. Check your order summary and click Checkout
7. Done! Invoice has been issued and your server/service will be deployed after it has been paid
